About the founder

Where have you travelled?
Central Asia, most of Asia-Pacific and Southeast Asia, Turkey, Dubai, Georgia, Armenia, Russia, and a few European countries: France, Germany, Austria, Italy, Spain, Albania, Belgium, Denmark, Netherlands, Sweden.

What destinations are on your bucket list?
Norway, Fiji, Seychelles, Bhutan, New York, Hawaii and Alaska (US).

Where do you work? EDUTech Future (building AISkills2Jobs programs for youth, mid-career to senior professionals in 7 countries)

What do you do there? I am a founder and GenAI Educator designing skills and employability pathways impacting future of work!

Why are you interested in gamification strategy design? I am fascinated by the work technology companies do in designing the products and user experience. I am interested in how user-centric design and behavioural insights nudge us to make [right] decisions, take risks and change behaviour. Another aspect is to understand how to create an engaging program and why 80% of MOOC learners do not complete the course.

In your wildest dreams, what would you do tomorrow if you could do anything? I would travel the world and work every month in a new country.

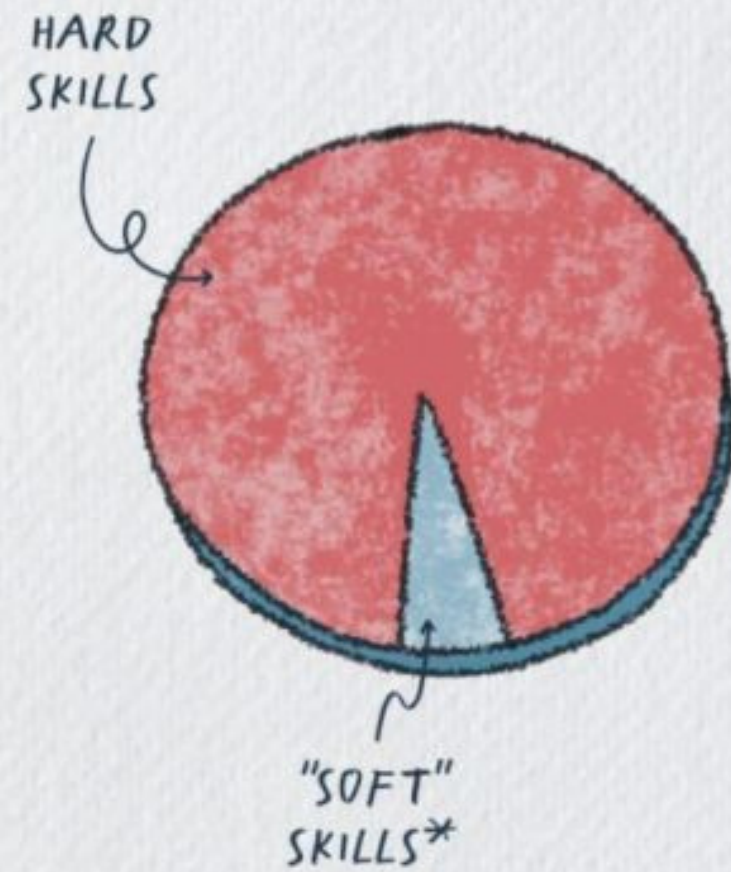

Having a Great time!

mindset

Our values and approach to learning

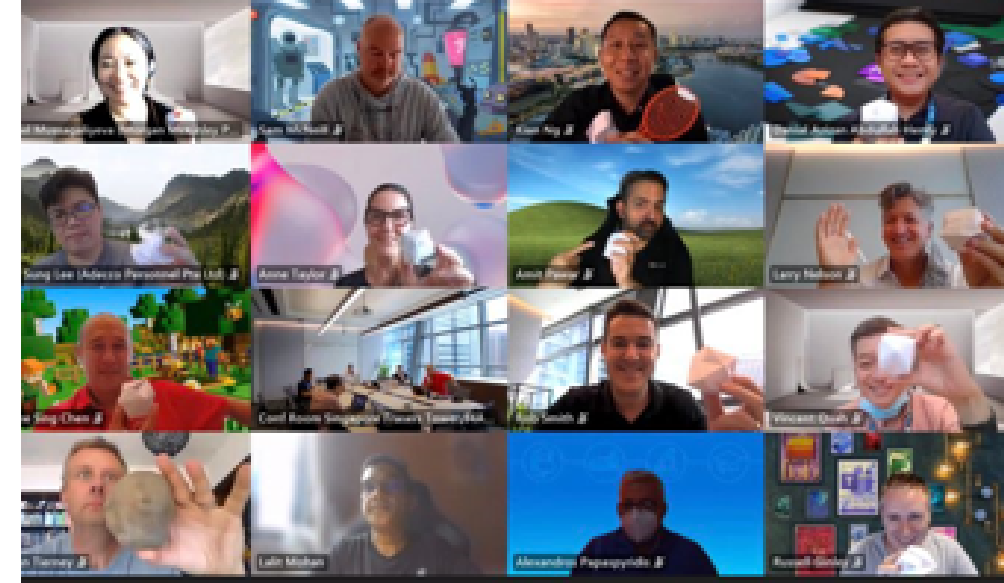

How experiential learning happens

Why take risk?

“If somebody offers you an amazing opportunity
but you are not sure you can do it,
say yes – then learn how to do it later!”

Richard Branson

Thank you

You know how every once in a while
you do something and the little voice
inside says, 'There. That's it. That's
why you're here.' ...and you get a
warm glow in your heart because
you know it's true?

Do more of that.
